The Faculties, for intellectual abilities, moral worth and presonal acquirements, will compare favorably with the most distinguished in our country. The medical faculty constitutes an anomaly in this or any other country—all of them are able lecturers and the best of teachers.

Those who will contemplate our geographical position, and the extent of our population, can have no doubt as to the cli-gibility of our situation for an enterprise of the kind. As to health, including all seasons of the year, we deny that ANY THER CITY HAS MORE.

A common error exists in the minds of many students relative to the place of studying medicine; those who intend practising among the diseases of the West and South should certainly educate themselves at a School whose Faculty are oractically acquainted with those diseases.

That the public may be satisfied of the permanency of this school, we feel it our duty to state, that the Trustees and Faculty form a UNIT in action, which augurs well for its future success; and that the peculiar internal organization

which connects them, cannot be interrupted. E. W. M. KING, COLUMBUS ACADEMY, BLACK CREEK.
